Forecast for Friday 23 Jun 2023

Weather: A dry and bright start. However, cloud will be increasing from the west, which will bring outbreaks of rain, locally heavy at times, during the afternoon and evening.

Chance of cloud-free hill tops above 600m: 80% during the morning, deteriorating to 20% in the afternoon and evening.

Low Cloud and visibility: Above 800m at first, but lowering to 300-400m in rain/drizzle during the afternoon and evening. Visibility will be generally good throughout, but reducing to moderate or poor at times, especially in rain/drizzle on the summits.
